# CHEESE

## KIDDERTON ASH

Created at Raven's Oak Dairy in Cheshire, the soft curds from their goat's milk are ladled by hand into individual moulds and gently drained. An outstanding goat's cheese with a delicate yet distinctive creamy flavour.

## GODMINSTER CHEDDAR

Organic Godminster is made with pasteurised cow's milk straight from the Somerset farms' own dairy cows. Most noticeable is the cheese's exceptionally creamy, rich, full flavour. Initially mellow with a creamy consistency, an exceptional vintage cheddar.

## CANTOREL ROQUEFORT

This Cantorel Roquefort from organic agriculture is characterised by its colour between white and ivory, its velvety aspect and smooth texture. Its streaked cavities of an intense blue give this cheese its typical taste.

## ROTHBURY RED

This firm rinded cheese is handmade at Inglewhite Dairy to a time-honoured family recipe. With a firm body and traditional flaky texture, it has a sweet butterscotch flavour and subtle aftertaste.

## BLACKSTICKS BLUE

A unique soft blue veined cheese, handmade by Butlers in rural Lancashire. With a distinctive amber hue, Blacksticks Blue reveals a delicious creamy smooth yet tangy taste.

## TUNWORTH

A Camembert-style cheese made by Stacey Hedges and Charlotte Spruce in Hampshire. It has a long lasting sweet, nutty flavour and a creamy texture with a thin wrinkled rind.
